Persons with Reduced Mobility

Persons with reduced mobility (wheelchair users) are also welcome to go on our tours. However, please let our booking office know in advance by calling on a weekday.

Baby Carriages and Strollers

For safety reasons, it is unfortunately not possible to take baby carriages or strollers on tours. They can be safely deposited at the baggage storage counter in Terminal 1, Concourse B, Level 1. If you show your tour ticket, this service only costs €1 for 3 hours and €7 for another 24 hours.

Parking

You'll find plenty of space to park your vehicle in our parking structures at the terminals. Buses must park on lot P36 (for a fee).

Means of Payment

Cash, Maestro and some other debit cards, VISA, American Express or bank transfers (for groups only).

Tour departure times may be changed at any time if required by airport operations. All prices are valid until further notice. If you cancel a booked tour at short notice or do not show up, a fee of 100 euros will be charged. It is allowed to take valuables, mobile/cell phones, cameras, and guide dogs. Please refrain from taking sharp or pointed objects or irritant gases or weapons of any kind on the tour. Alcohol and narcotics are strictly forbidden in all airport areas that are subject to security. Changes may be made to these rules after this brochure is finalized. Fraport AG therefore provides no guarantee of their completeness or correctness.

The information in this brochure is current as of October 2016.

Airport Fascination

*Discover Frankfurt Airport during
an exciting tour!*

**Frankfurt
Airport**

Get Ready for an Adventure!

The airport is waiting to be explored

The Airbus A380 superjumbo slowly goes into motion. It's so close you could almost touch it. Right near the airport tour bus, a tractor pushes the world's largest passenger aircraft out of its position at the terminal. An airport employee gives a thumbs-up to the giant bird. Any moment now, the 560-tonne double-decker will take off into the wild blue yonder.

This is everyday routine at Frankfurt Airport; every step of the procedure has been practiced and honed to perfection. Some 1300 aircraft take off and land each day. But the moment in which one of these technological wonders lifts off never ceases to fascinate. And nowhere else in Germany can you take pictures of as many different aircraft types.

Frankfurt Airport is one of the world's largest aviation hubs. Last year, about 61 million people departed, arrived, or transferred here. And the number is continuing to increase as the airport grows. This is also creating new jobs. With

more than 81,000 people now working here, the airport is already Germany's largest place of employment.

Experience the action live right on the apron and airfield; peer behind the scenes of a major aviation hub. We have created tours to satisfy every taste. Would you like to get a close-up view of the A380 maintenance base? Are you interested in our newest airport fire engine, the giant Z8 XXL?

Are you fascinated by the sea of lights at the airport after dark? Or are you looking for a special idea for celebrating your child's birthday? You'll find all of the above and much more in this brochure.

Have fun!

Maxi Tour

Frankfurt Airport's central runway system from up close

Explore the airport with us! Come watch the hustle and bustle of aircraft being prepared for departure at the docking positions and taxiing on the apron. See where freight is handled at CargoCity North and South, and peer at large cargo planes and Lufthansa's giant Airbus A380 hangar. You also get to see the site where the future Terminal 3 is being built. All the while, our tour guide entertains you with fascinating behind-the-scenes details.

Did you know?

The Airbus A380 is currently the world's largest passenger aircraft, with a wingspan of 79.8 meters. When fully loaded, it requires a distance of up to 2.5 kilometers to lift off.

Fire Department Tour

Take a look behind the scenes at the airport's fire department

No airport can operate without a fire department. Its firefighters have to be available to deal with emergencies, otherwise no aircraft may take off or land. On this tour, you can even get out of the bus to take a close look at the enormous airport fire engines (called crash tenders). A fire protection expert and the tour guide provide explanations and answer your questions. This tour naturally also takes you to all of the other interesting parts of the airport: the ground handling operations at the terminals and on the apron, the Airbus A380 maintenance base, CargoCity South, and the site of the future Terminal 3.

Did you know?

The new Z8 XXL is the airport fire department's pride and joy. Specially developed for Frankfurt Airport, this huge crash tender carries a whopping 12,500 liters of water for extinguishing fires.

Airport by Night/ Sunset Tour

Immerse yourself in a sea of lights after dark

Immerse yourself in the evening atmosphere of a worldclass airport and the unique sea of lights at the runways. You'll be mesmerized! This tour – called "Airport by Night" in the winter and "Sunset Tour" starting in spring – ends with a champagne soirée in the Käfer's Restaurant, where you get another chance to ask your guide questions while letting the evening wind down in a pleasant ambiance. If you like, you can also preorder delicious dishes from the restaurant's large menu at special reduced prices.

Did you know?

Every day, an average of more than 150,000 passengers take off or land at Frankfurt Airport. And its underground baggage conveyor system, with 80 kilometers of conveyors, moves more than 70,000 items a day.

Visitors' Terrace

A fascinating view that's worth a visit

Following extensive renovation and modernization, the viewing platform in Terminal 2 has now reopened with 1,800 square meters of space. Enjoy the thrilling view of aircraft landing and taking off and the bustling activity on the apron. Thanks to a new protective wire mesh fence with small gaps for taking pictures of the action out on the airfield, it will no longer be necessary for visitors to clear a security check.

We're looking forward to welcoming you there!
